

T'aven saste taj baxtalé!
Romani
the language of the Roma

Daniel Krasa
Berlin, May 2016

General introduction

- Spoken mainly in Europe, North and South America, Australia
- Between 3 and 5 million speakers worldwide (no reliable estimate)
- Romania (~ 1 million), Bulgaria (600.000), Russia (~ 400.000), Serbia (~ 400.000), Slovakia (~ 300.000), Hungary (290.000), Turkey (280.000), Macedonia (220.000), France (210.000)
- Official minority language in more than 20 countries.
- Recognized language at the Council of Europe.

Roma & Romani in Europe

Roma population around Europe, estimates

What does it sound like?

*Me tut uŽarāv, Čhajě
bo me tut kamāv, Čhajě
me tut uŽarāv,
kàna pàlma avehá,
me tut uŽarāv*

*(I'm waiting for you, girl)
(because I love you, girl)
(I'm waiting for you)
(until you will come back)
(I'm waiting for you)*

*Me tut Čumidāv,
tire lolé vuštorá,
tire kalé jakhorá,
àndre lènde me dikhāv,
so me tūke te phenél,
me tut Čhajě igen kamāv,
me tut uŽarāv*

*(I'm kissing you)
(your red lips)
(your black eyes)
(I'm looking into them)
(what shall I tell you?)
(I love you so much girl)
(I'm waiting for you)*

Jan Bendig

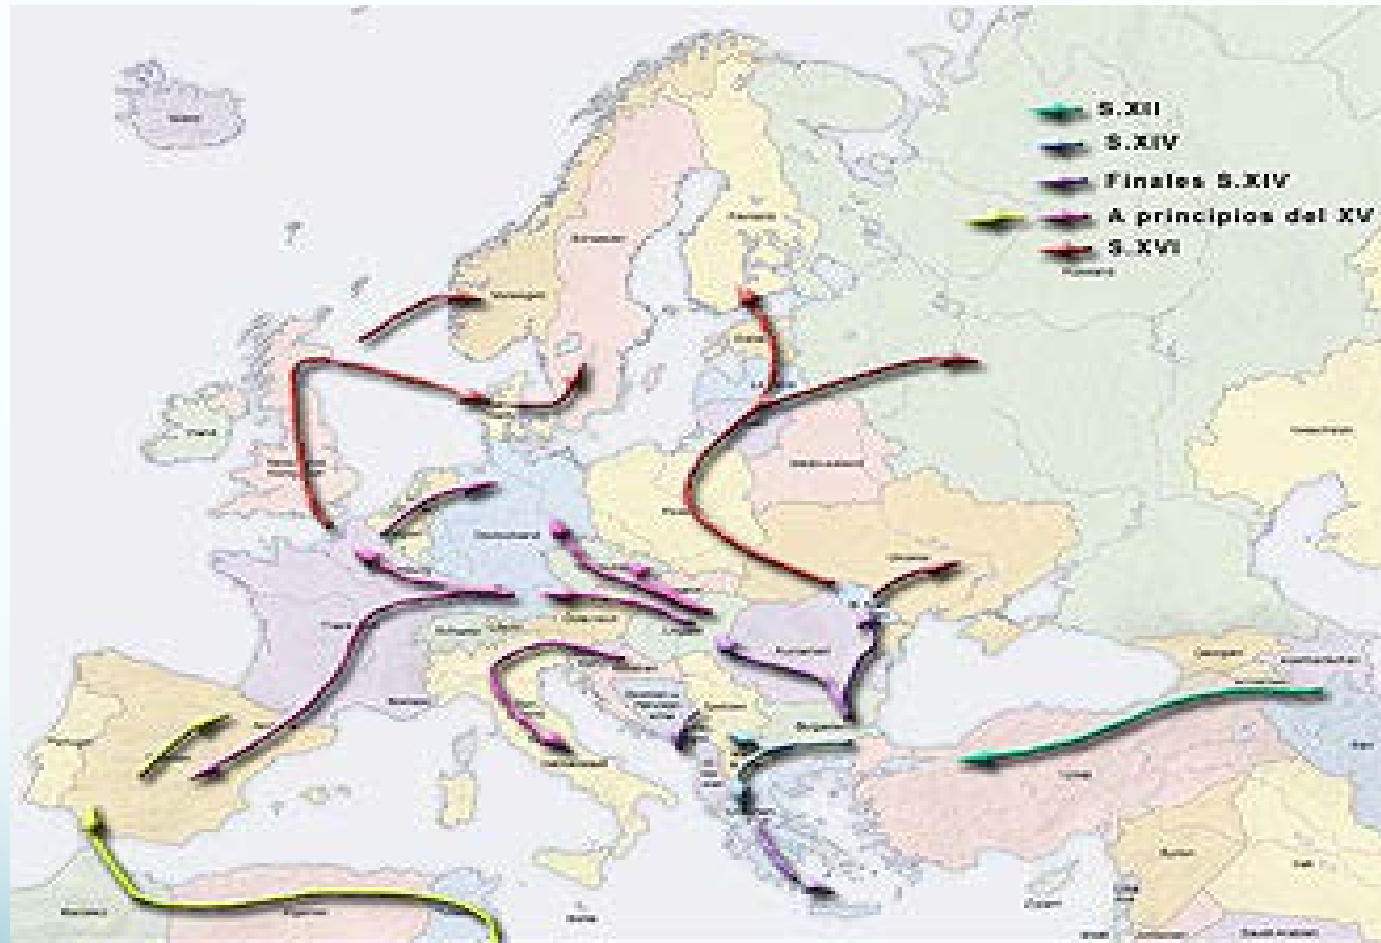

History of Romani

A few facts

- *Johann Christian Christoph Rüdiger (1782)*
- *Possible departure of the Roma from India: 5th-7th century*
- *Documents from the Sassanid Empire: 7th century*
- *Documents from the Byzantine Empire: 11th century*
- *Documents from the South Balkans: 14th century*
- *Linguistic evaluation carried out in the 19th century by August Friedrich Pott (1845) and Franz Miklosich (1882-1888) showed the Romani language to be a New Indo-Aryan language (NIA)*

The “diaspora” of the Roma

Linguistic influences

Part 1: the origins

- *Indo-Aryan origin: amé (we), bakri (sheep), barò (big), Del (God), jag (fire), kher (house), paji (water), sumnakäj (gold), thulò (fat)*
- *Early loanwords:*
Persian: angustri (ring), baxt (luck), korro (blind), mol (wine), veš (forest), zor (strength)
- *Armenian: dudüm (pumpkin), grast (horse), xumer (dough), kotör (piece), mom (wax)*
- *Byzantine-Greek: amborim (maybe), drom (way), kurkö (Sunday), papin (goose), trjandä (30), zumi (soup)*

Linguistic influences

Part 2: new loanwords

- Slavonic: *áli* (but), *drištvo* (society), *küxnja* (kitchen), *slobodija* (freedom), *stànica* (station)
- Romance: *feljästra* (window), *gindo* (thought), *lümja* (world, universe), *murmünto* (tomb)
- Germanic: *cájto* (time), *färba* (colour), *fläša* (bottle), *policájto* (policeman), *šträfo* (fine)
- Hungarian: *bistošo* (sure), *čaládo* (family), *emelëto* (floor), *hirešo* (famous), *mindig* (always)
- Others: *vurdön* (cart - Ossetian), *cámle* (chestnut - Georgian), *düna* (world - Turkish)

The old substratum vs. new loanwords

- *But rahlé avilé | xurdé | kočakénca taj | krafínénca ánde | krčma le | podóski.
Indian | Persian | Armenian | Greek | Slavonic | Romanian
Many boys came with small buttons and nails to the tavern/pub at the bridge.*
- *Romani doesn't exist without a contact language.*
- *Depending on the dialect, up to 50-75% of the vocabulary is of modern origin.*
- *There are around 700 roots from Indo-Aryan, no more than 100 from Iranian, at least 20 from Armenian and up to 250 from Byzantine-Greek. None of these more than 1000 lexemes are all present in one particular dialect.*

Indian roots - from Sanskrit to Romani

	<u>Sanskrit</u>	<u>Hindi</u>	<u>Romani</u>
hand	<i>hasta</i>	<i>hāth</i>	<i>vast</i>
milk	<i>dughda</i>	<i>dūdh</i>	<i>thud</i>
place	<i>sthana</i>	<i>sthān</i>	<i>than</i>
blood	<i>rakta</i>	<i>rakt</i>	<i>rat</i>
brother	<i>bhrāṭṛ</i>	<i>bhāī</i>	<i>phral</i>
to go	<i>yati</i>	<i>jānā</i>	<i>džav</i>
3	<i>trīṇi</i>	<i>tīn</i>	<i>trin</i>
100	<i>śata</i>	<i>sau</i>	<i>šel</i>

Romani shares a number of features with Central Indo-Aryan languages. The most significant isoglosses are the shift of Old Indo-Aryan like *ś-* to *š-* (Sanskrit *śās*; Romani *jāšk* 'eye').

However, unlike other Central Indo-Aryan languages, Romani preserves many dental clusters (Romani *trin* 'three', *phral* 'brother', cf. Hindi *ān*, *bhāī*). This implies that Romani split from the Central Indo-Aryan languages before the Middle Indo-Aryan period.

Romani vs. NIA

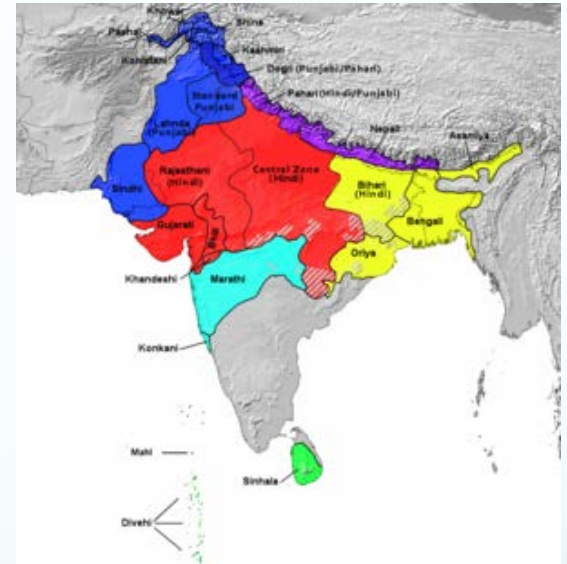

(Hindi/Urdu, Marathi, Gujarati etc.)

Can speakers of NIA languages understand Romani?

- *Miré bal hin kalé, tiré bal naj kalé!*
- *Kon hin kheré?*
- *Kon ajás?*
- *Miri bari phen aji.*

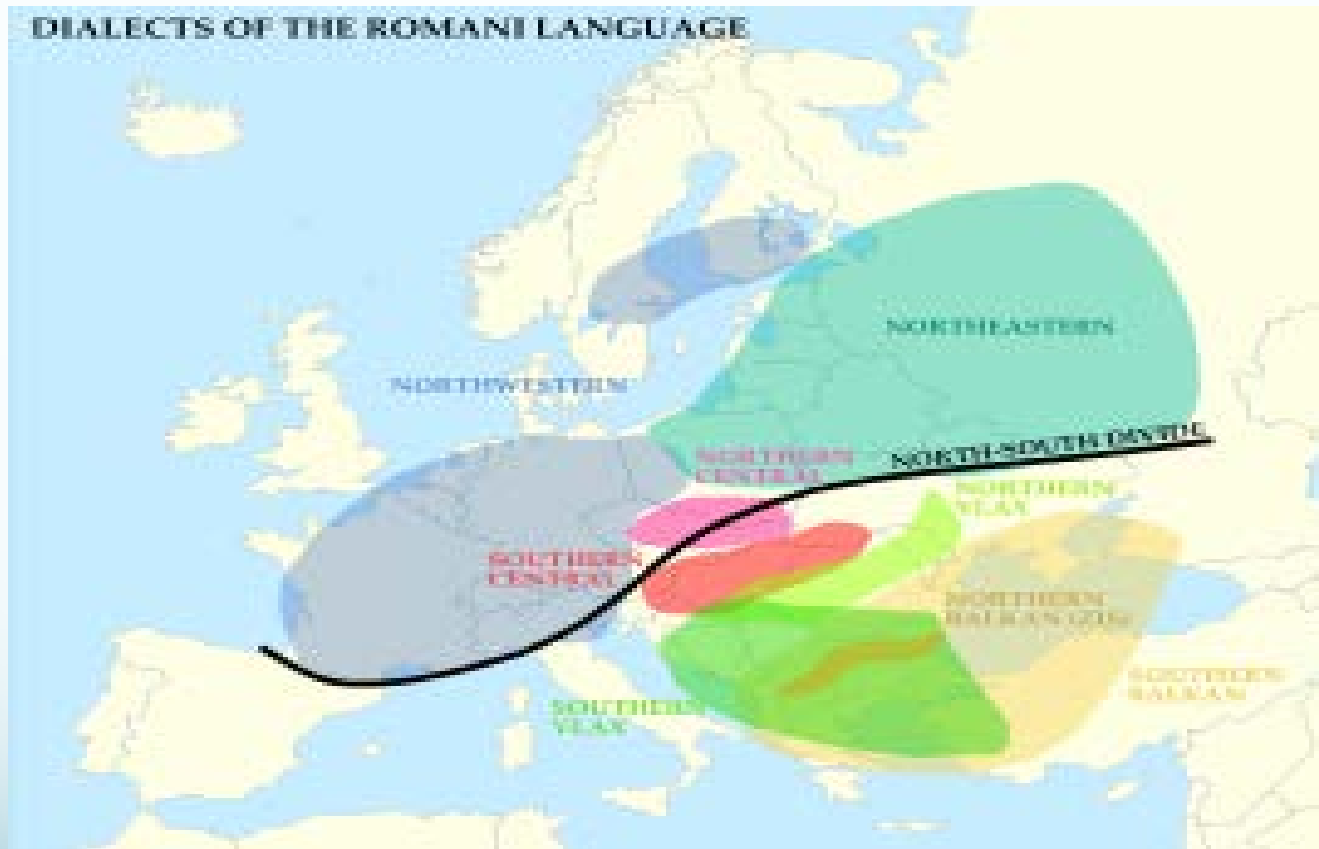

Many words are similar to the Marwari (Western Hindi) language spoken in Rajasthan, India.

Romani also shows some similarity to the Northwest Indo-Aryan languages like Kashmiri: e. g. expletic pronouns as person markers on verbs (*berdó* "done" + *me* 'me' → *berdém/berdjëm* "I did")

Dialects of Romani

Vlax vs. Non-Vlax

Comparing the dialects

"Why is there war in the world?"

➤ Vlach

Söske si marimós ánde lúmja? (Kalderaš)

Söske marimó-j ándi lúma? (Lovara)

Söske si maripé an e lúmja/an o svéto? (Gurbet)

➤ Non-Vlach

Söske isi maripé an e dúnja/an o svéto? (Arli)

Söske hi maribén ándro svétos? (East Slovak)

Söske hi hábori ándo vilago? (Burgenland-Roma)

Höske hi kurépen/krigo an o vélto? (Sinti)

Major dialects in Austria

English	Sinti	Burgenland Roma	Arli	Kalderash	Lovara
the world	o vëlto (D)	o vilago (H)	e dûna (T)	e lâmjia (R)	i lâma (R)
the window	e vîxli (QR)	o bîklo (H)	e pëndžera (T)	e feļjâstra (R)	i feļâstra (R)
the cemetery	e fridkofa (D)	e tîmetîši (H)	o mîzari (T)	e murmânci (R)	i murmânci (R)
the mountain	e bêrga (D)	o dômbô (H)	o veš (P)	o plaji (R)	o plaji (R)
the violin	e gâjga (D)	e hîgeduva (H)	e kemâna (T)	e lâvata (R)	i lâvata (R)
I think	me dînkrau (D)	me gondolinâv (H)	me mislinâv (S)	me gîndîv (R)	me gîndij (R)
I help	me hîlfrâu (D)	me pomožinâv (S)	me pomožinâv (S)	me ažutiv (R)	me žutiv (R)
I start	me fîngrâu an (D)	me kezdinâv (H)	me bašladinâv (S)	me počnîv (S)	me kezdiij (S)

Which dialect should I choose?

- *Personal motivation?*
- *Geographic reasons?*
- *Contact language?*
- *If in doubt... go for a Vlax-dialect such as Kalderash or Lovara*

<i>Plosive (voiced)</i>	<i>b [b]</i>	<i>d [d]</i>				<i>g [g]</i>	
<i>Affricate</i>		<i>c [ts]</i>	<i>č [tʃ]/ čh [tʃʰ]</i>				
<i>Fricative</i>	<i>f [f]</i>	<i>s [s]</i>	<i>š [ʃ]</i>			<i>x [x]</i>	<i>h [h]</i>
<i>Fricative (voiced)</i>	<i>v [v]</i>	<i>z [z]</i>	<i>ž [ʒ]</i>		<i>j [j]</i>		
<i>Nasal</i>	<i>m [m]</i>			<i>n [n]</i>	<i>ɲj [ɲ]</i>	<i>ŋ [ŋ]</i>	
<i>Liquide (vibrant)</i>				<i>r [r]</i> / <i>r̄ [r̄]</i>			
<i>Liquide (lateral)</i>				<i>l [l]</i>			

Phonetics of Romani Vowels

	Front	Central	Back
Close	i [i, i:]		u [u, u:]
Mid	e [e, ε]		o [o, ɔ]
Open		a [a, a:]	

Stress = loanwords vs. origin

čh vs. š

dž vs. ž

r/r̥ vs. ř

t vs. tʃ/č

î vs. i

*O tiró čhavó džanél mišbó i romani čhib!
(Non-Vlax)*

*O čiró šavó žanél mišbó e řomani řib!
(Vlax)*

Structure & morphology

- *Two genders (m. & f.) - o raklò / e rakli, o kher / e pher*
- *Singular & Plural - e raklè / e raklija, kher / phenja*
- *Adjectives agree in gender and number:
o barò raklò / e barè raklè, e bari rakli / e barè raklija*
- *Two cases - direct & oblique (= accusative):
raklès / raklija, raklèn / raklijan*

Genitive: i raklèski pher (the boy's sister)

Dative: raklèsko (to the boy)

Ablative: raklèstar (from the boy)

Locative: raklèste (in the boy)

Instrumental: raklèssa (with the boy)

- *Verbs have present and past roots:
me ker-áv (I do), me kerd-ém/kerdj-óm (I did), including some irregularities: me džav (I go), me dželem/gelem (I went)*

How it actually works

- *Kaj si o phuró Rom?*
where is the[m.] old[m.] Rom
- *I phuri Romni si an o kher.*
the[f.] old[f.] Romni is in the[m.] house[m.]
- *Mothó mánge váreso pa tumaró trájo kathé!*
say-! to-me something about your(m) life(m) here
- *Kamáv te vorbij tje dadésa. Numa sigo taj akaná!**
I-want that I-speak your[obl.] father[-obl.]-with. but fast[adv.] and now

**Ába sigo taj akanik!*

Romani shows some features of New Indo-Aryan, such as erosion of the original nominal case system towards a nominative/oblique dichotomy, with new grammaticalized case suffixes added on. This means that the Romani exodus from India could not have happened until late in the first millennium CE.

Numbers & days of the week

- *jek (1), duj (2), trin (3), štar (4), paŕž (5), šov (6) eftá (7), oxtó (8), injá (9), deš (10)*
- *deš-u-jék (11), deš-u-dúj (12), deš-u-trin (13) ... biš (20), biš-taj-jék (21), biš-taj-dúj (22), trijandá (30), štar-var-deš (40), paŕž-var-deš (50) ...*
- *kurkó (Sunday G), lúja / ponedelniko (Monday R/SL), márci / utorniko (Tuesday R/SL), tetrádži (Wednesday G), žója / četvorniko (Thursday R/SL), paraštují (Friday G),
sávato
(Saturday G)*

Romani in action!

- *T'avés sastó / sasti taj baxtaló / baxtali!*
- *Sar san?*
- *Mišťó sim! Aj tu?*
- *Xav tjo iló, phén-ta mánge ... !*
- *Čumidáv tjo iló, sar bušós?*
- *Me bušuváv ..., taj tu?*
- *Sijas, te trajin but bersě!*
- **Ačh Devlésa! / Ža Devlésa!**

And say some more ...

- *Rom / Romni san?*
- *Va - Na, gadžó / gadží sim.*
- *Najis ! (Ov sastó / sasti!)*
- *Žanés romanés?*
- *Žanáv fěrdi jek cira romanés.*
- *Sitjuváv romanés.*
- *Či Žanáv mištó romanés.*
- *Rom, Romni, Romá; Sinto, Sintica, Sinti, Sintitikes*

Najis tumenge!

In memory of Lev Cherenkov

Thank you all for your attention and don't forget...

Monolingualism is a disease. Good to know it's curable.

Te trajin but taj mištó tumaré čhavénca taj sa nepotónca!

Shutka Roma Rap
